You and the Company agree as follows:

1. **Services of the Company**

In order to benefit from the Services, the User should own Staking Token(s) or Staked Token(s) and must register on the Platform subject to a KYC/AML due diligence process as described under article 2 of these Terms and Conditions.

The Services of the Platform are as follows:

1. Staking

Subject to satisfactory completion of the KYC/AML due diligence process, the User will use the service of staking of the Platform by sending his Staking Token(s) as a payment to the Company. Upon receipt of the Staking Token(s), the Company will instantly mint and issue Staked Token(s) and operate the nodes, allowing the User to use such Token in the DeFi ecosystem. For the avoidance of doubt, the Company will have the ownership of the Staking Token, as the latter is used to pay the Staking Services of the Company.

The Staking Token owned by the Company might generate Reward over time. The Company, at its sole discretion, can allocate part of the Reward to the User, holder of Staked Token(s). If the Company allocates some of the Reward to the User, the latter can, at its sole discretion and upon demand, donate a portion of his Reward to a Liquidity DAO.

Additional information to illustrate the use of the Staked Token are provided on the Platform. However, the information on the Platform is for information purposes only and **may be updated or amended at any time by the Company**. Only these Terms and Conditions contain the Services conditions and are contractually binding. When deciding to use the Services, the User shall rely on these Terms and Conditions, not the Platform.

1. Purchasing Staking Tokens

Subject to satisfactory completion of the KYC/AML due diligence process, the User, holder of Staked Token(s), may buy upon availability Staking Token(s) with his Staked Token(s), at the same value in the equivalent crypto currency.

Users agree to use the Platform and any related material and request Services, at their own and sole risk.

The Platform, related materials, the payment processing and other tasks are provided on an "as is", "with all faults" and "as available" basis. Users expressly agree that the use of the Platform, related materials, the payment processing and other tasks are at their sole risk. To the fullest extent permitted by applicable law, the Company makes no representations or warranties of any kind, express or implied, as to the operation of the Platform, related materials, the payment processing or other tasks, and disclaims any and all representations or warranties of any kind, express or implied, including without limitation: (a) any implied warranties of merchantability, fitness for a particular purpose, title, or non-infringement; (b) any warranty that the Platform, related materials, the payment processing or other tasks will meet Users' requirements, will always be available, accessible, uninterrupted, timely, secure, operate without error, or will contain any particular features or functionality; (c) any warranty that the information, content, materials, or submissions included on the Platform will be as represented by Users that the tasks are lawful, or that Users will perform as promised or to Users' satisfaction; or (d) any implied warranty arising from course of dealing or usage of trade.

1. **KYC/AML Requirements**

The use of the Services may be prohibited in certain jurisdictions and it is your sole responsibility as a User to ascertain whether the use of the Services is allowed in the jurisdictions in which you live or do business. However, if you live and/or operate in a Restricted Country as described under Exhibit A, you may not pass the KYC/AML checks.

The Company uses the services of a KYC/AML provider for the purposes of carrying out the internationally required KYC and AML checks on all Users of the Platform. In turn, in accordance with legislation, the KYC/AML provider requires different levels of information and a slightly different procedure depending on the total value in Swiss Francs being transacted and whether you are an individual or a corporation, a Swiss resident or not. The different tiers of value are as described below:

- i. Tier 1 is a value up to CHF 3'000.- and requires you to provide your full name, home address, nationality, email, phone number, proof of address, passport or other acceptable photo id, banking details, crypto address (if any), and the completion of Form A which is the internationally recognised 'Declaration of Ultimate Beneficial Owner of Funds'.

- ii. Tier 2 is a value of CHF 3'000.- up to CHF15'000.- which requires you to provide the same information as Tier 1 plus, if you are a corporation, corporate documents and completion of Form K (indicating persons with an ownership interest of 25% or more), and, if you are a Swiss individual or corporation, a video conference.
- iii. Tier 3 is a value of CHF 15'000.- up to CHF 100'000.- which requires you to provide the same information as Tier 2 plus proof of fiat and/or crypto funds, proof of residence for Swiss Individuals and a video conference for non-Swiss individuals and corporations.
- iv. Tier 4 is a value of CHF 100'000.- up to CHF1'000'000.- same as Tier 3.
- v. Tier 5 is a value in excess of CHF 1'000'000.- which requires you to provide the same information as Tier 4 plus a physical meeting if you are an individual, or if you are a corporation with shareholders.

1. Specifications of Staked Tokens

By using our Services, you acknowledge that you understand and have no objection to the following specifications of the Staked Tokens:

- a. Payment Token. The Staked Tokens are considered under Swiss laws and regulation as cryptocurrencies and qualify, from a Swiss regulatory and legal perspective, as a “payment token” as such term is defined in the FINMA Guidelines on ICO.

The Company is currently seeking to obtain a no-action letter from FINMA confirming that the Staked Tokens are not subject to the Swiss Banking and Financial laws, including the Federal Act on Collective Investment Schemes and the Federal Act on Financial Market Infrastructure.

The Staked Tokens provides with no right comparable to the ones of a share, bond, participation rights, structured products, mutual fund/collective investment schemes/investment fund, derivatives or other type of securities under Swiss law. The Staked Tokens and the Company are not subject to the authorization or supervision by the FINMA.

- b. AML. The Staked Tokens should qualify as a payment token and are thus subject to the Anti-Money Laundering Act (AML). In this regard, the Company has mandated a Swiss financial intermediary subject to AML (the KYC/AML Provider, as later defined) to perform KYC verifications prior to issuing the Staked Token.
- c. No Representations and Warranties. The Company does not make any representations or warranties, express or implied, including, without limitation, any warranties of title or implied warranties of merchantability or fitness for a particular purpose with respect to the Staked Tokens or their utility, or the ability of anyone to purchase or use the Staked Tokens. Without limiting the foregoing, the Company does not represent or warrant that the process of Staking or purchasing the Staked Tokens will be uninterrupted or error-free or that the Staked Tokens are reliable and error-free.

If you did not understand any of the concepts identified in these Terms and Conditions, please contact us at hello@stakehound.com before agreeing to the Terms and Conditions. By agreeing to the Terms and Conditions, you confirm that you understood any and all concepts described in these Terms and Conditions to your satisfaction.

Exhibit A

GENERAL RESTRICTIONS

The Staked Tokens are issued to owners of Staking Tokens in Switzerland and in certain jurisdictions - other than Switzerland - provided that such issuance is not subject to specific limitations under such applicable laws and complies with the requirements of such applicable laws.

Persons who are in possession of these Terms and Conditions are expressly required to inform themselves about applicable laws and regulations as well as to observe and comply with such restrictions. These Terms and Conditions may not be communicated, used for or in connection with any offer to, or solicitation by, anyone in any jurisdiction or in any circumstances in which such offer or solicitation is not authorized or is unlawful.

These Terms and Conditions are not for release, publication, circulation and distribution, and do not constitute or form a part of any offer or solicitation to use the Services, directly or indirectly, in or into the United States (including its territories and dependencies, any state of the United States and the District of Columbia), Australia, North Korea, Iran, Myanmar, Afghanistan, Angola, Aruba, Bangladesh, Belarus, Benin, Bhutan, Bolivia, Botswana, Brunei Darussalam, Burkina Faso, Bosnia, Burundi, Cambodia, Cameroon, Cape Verde, Central Africa republic, Chad, Comoros, Congo, Congo Democratic republic, Cuba, Cote d'Ivoire, Djibouti, Dominica, Ecuador, El Salvador, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guatemala, Guyana, Guinea, Guinea Bissau, Haiti, Honduras, Iraq, Jordan, Kenya, Kyrgyz Republic, Laos People's Republic, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Micronesia, Moldova, Mongolia, Mozambique, Nauru, Nepal, New Caledonia, Nicaragua, Niger, Nigeria, Niue, Oman, Pakistan, Palestinian Areas, Papua New Guinea, Republic of China, Reunion, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Somalia, South Korea, South Georgia, Sudan, Sri Lanka, Suriname, Syria, Swaziland, Tajikistan, Tanzania, Timor, Togo, Tonga, Tunisia, Turkmenistan, Uganda, USA, Uzbekistan, Venezuela, Western Sahara, Yemen, Zambia, Zimbabwe or any jurisdiction into which the same would be unlawful (the "**Restricted Countries**").

The list of such Restricted Countries is not exhaustive and may be adapted at any time. Moreover, the Platform (as such term is later defined) may contain additional restricted countries and other restrictions.

Exhibit B

Certain Risks Relating to the Use of Services and the Staked Tokens or the Staking Tokens purchased by the Company (the "Tokens" for the purpose of the Exhibit B)

By using the Services of the Company through the Platform, you expressly acknowledge, understand and assume the following risks as well as all other risks associated with the use of the Tokens (including those not included below):

1. ***Blockchain Risk***

Because the Tokens are based on the PoS Blockchain, any malfunction, breakdown or abandonment of such protocol may have a material adverse effect on the Tokens. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to the Tokens by rendering ineffective the cryptographic consensus mechanism that underpins PoS protocol. You acknowledge that PoS blockchain is prone to periodic congestion during which transactions can be delayed or lost.

2. ***Source Code Risks***

The source code underpinning the Tokens may contain flaws, bugs, defects or inconsistencies that could compromise the predictability, usability, functionality, stability and security of the Tokens. The Company will attempt to perform quality assurance and audit procedures to ensure the source code accurately reflects the Tokens intended operation, though there can be no guarantee that any errors are identified or the source code will be error-free. In addition, source code modifications or updates may lead to unexpected or unintended outcomes that may adversely affect the functionality of the Tokens. Source code modifications that constitute upgrades may be required in connection with the development of the Tokens, and your failure to participate in any such upgrades may result in the loss of some or all Token functionality.

3. ***Risk of Hacking and Security Weakness***

The Tokens may be subject to expropriation and or/theft. Hackers or other malicious groups or organizations may attempt to interfere with the Tokens in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks,

smurfing and spoofing. Furthermore, there is the risk that Tokens may contain intentional or unintentional bugs or weaknesses which may negatively affect the Tokens or result in the loss of your Tokens, the loss of your ability to access or control your Tokens. In the event of such a software bug or weakness, there may be no remedy and holders of the Tokens are not guaranteed any remedy or compensation.

4. ***Risk of Losing Access to the Staked Tokens Due to Loss of Private Key(s)***

The Tokens purchased by you may be held in a digital wallet, which requires a private key, or a combination of private keys, for access. Accordingly, in case of loss of requisite private key(s) associated with your digital wallet, any third party that gains access to such private key(s), including by gaining access to login credentials of a hosted wallet or vault service you use, may be able to misappropriate your Tokens. Company is not responsible for any such losses.

5. ***Risk of Invalid Wallet***

It is your responsibility to ensure that the digital wallet address provided to the Company for the receipt of the Tokens is capable of accepting all types and categories of Staking Tokens. The Company is not responsible if your wallet is not capable of accepting the Tokens issued by the Company. You assume all responsibility with respect to the foregoing, and the Company accepts no liability whatsoever for wallets that do not accept the Tokens issued by the Company.

6. ***Risk of Slashing***

You duly acknowledge that the Tokens can be subject to slashing which may result to a permanent and total loss of value of such Token in the market. You assume all responsibility with respect to the foregoing, and the Company accepts no liability whatsoever in relation to the consequence of the Tokens being subject to slashing.

7. ***Market Value***

The market value of Tokens may be derived from the continued willingness of market participants to exchange fiat currency or digital assets for Tokens, which may result in the potential for permanent and total loss of value of such Token in the market.

8. ***Risks Associated with Uncertain Regulatory Framework***

The regulatory status of cryptographic tokens, digital assets and blockchain technology is unclear or unsettled in many jurisdictions. It is difficult to predict how or whether governmental authorities will regulate such technologies. It is likewise difficult to predict how or whether any governmental authority may make changes to existing laws, regulations and/or rules that will affect cryptographic tokens, digital assets, staking, yield farming, blockchain technology and its applications. Such changes could negatively impact the Tokens in various ways, including, for example, through a determination that the Tokens are regulated financial instruments that require registration. The Company may cease the distribution of the Tokens or cease operations in a jurisdiction in the event that governmental actions make it unlawful or commercially undesirable to continue to do so.

9. ***Risks of Government Action***

The industry in which the Company operates is new, and may be subject to heightened oversight and scrutiny, including investigations or enforcement actions. There can be no

assurance that governmental authorities will not examine the operations of Company and/or pursue enforcement actions against the Company. Such governmental activities may or may not be the result of targeting the Company in particular. All of this may subject the Company to judgments, settlements, fines or penalties, or cause the Company to restructure its operations and activities or to cease offering certain products or services, all of which could harm the Company's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the Tokens.

10. ***Risks Arising from Taxation***

The tax characterization of the Tokens is uncertain. You must seek your own tax advice in connection with purchasing the Tokens, which may result in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.

11. ***Legal Risks***

Federal, state and even international laws, regulations and/or rules applicable to technology industries, including but not limited to those regarding the blockchain technology may impact or constrain the design, implementation and operation of the Tokens.

12. ***Unanticipated Risks***

Cryptographic coins such as the Tokens are a new and untested technology. In addition to the risks included in this **Exhibit B**, there are other risks associated with the use of the Tokens, including those that the Company cannot anticipate. Such risks may further materialize as unanticipated variations or combinations of the risks discussed in this **Exhibit B**.
